

# Arizona Big 1 PAC

The future of our industry is greatly dependent upon our ability to become engaged in the political process. The Arizona State Legislature regularly considers legislation that directly affects the livelihood of independent agents – from mandatory auto insurance, taxes, healthcare, data, privacy, cyber and workers compensation to the insurance regulatory system. We're fortunate to have a very strong state government affairs team working for us through our membership in the Independent Insurance Agents and Brokers of Arizona (Arizona Big 1). However, they can't do it alone. It is vital that we, as small business owners and agents, play an active role in shaping the public policy debate and ultimately the laws that come out of the Arizona Legislature.

## AAPAC - Arizona Agents Political Action Committee

The Arizona Agents Political Action Committee is a state political action committee that supports candidates for Arizona statewide offices. It is a way for independent agents to be involved in the political process, support candidates and make our voices heard through the halls of the State Capitol and our issues and concerns visible to our legislators.

The insurance industry (one of the most highly regulated industries in the country) has become the political target of legislators and political activists who do not care about the industry's successful future. Several legislative proposals, in a naïve attempt to "fix" the industry, would have virtually destroyed the Arizona insurance marketplace for both insurers and agents/brokers. The Arizona Big 1's government affairs team diligently works with the state legislators guiding them about legislation that affects the insurance industry.

AAPAC makes contributions on a non-partisan basis to candidates who we believe will be open to supporting our point of view and share the same regulatory philosophies and goals. Contributions assure we will be able to present the independent agents' interests and knowledge when it is needed to protect our customers and the independent agents.

Why give to AAPAC? Actions by state government affect your livelihood every day. Become part of the solution. Become involved.

## AAPAC Contribution Form
