

CRIS Workers Compensation for Contractors Seminar

This course provides a general overview of standard workers compensation and employers liability insurance, with specific attention to provisions that most affect coverage or create problems for some or all contractors. In addition to the standard policy provisions, key statutes that impact contractors workers compensation exposure and costs, such as independent contractor liability, employee leasing, overtime pay, and various federal acts, are also addressed. Suggestions for modifying coverage to address potential coverage gaps and other problematic provisions are provided where appropriate.
